- Solved 300+ problems on CodeChef (Profile: [CodeChef](#))

PROJECTS

Farm Mitra a Mobile App for Farmers

[Live Link](#)

Developed a React Native app connecting farmers and buyers, integrating secure payments, real-time price tracking, and user-friendly interfaces for listing, browsing, and purchasing produce. Added notifications and analytics to provide market insights and enhance decision-making.

AI Driven Smart Interviewer and Assessment Platform

[Live Link](#)

Developed an AI-powered platform for automated candidate evaluations through speech-to-speech interviews. The system analyzes verbal responses to assess skills, communication, and problem-solving, providing unbiased, data-driven insights to streamline hiring decisions. Integrated real-time feedback and reporting features to improve recruitment efficiency and candidate experience.

Pustak Kendra A Free Digital BookStore

[Live Link](#)

Pustak Kendra is a digital platform that offers free access to top-notch PDF books across genres, empowering readers to explore quality literature without any cost. It promotes open reading culture by curating high-value titles for students, professionals, and lifelong learners.
